

**High-level, actionable recommendations for stakeholders, including the government, UN agencies, CSOs, and UN Women, on assessing the cross-border analysis of the gendered impacts of climate-induced hazards in Malawi, Mozambique, and Zimbabwe.**

**Annexure 1: Detailed Actionable Recommendations (summarized from the multi-country assessment)**

Core Issue	WRD Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
Improving governance	DRM Gender action plan in every sector department/cluster (government sector department, every sphere of local government)	<ul style="list-style-type: none"> <li>Relevant sector ministry/department to identify the key capacity gaps (institutional, human resources, knowledge, and tools gaps) of gender integration in government sectoral strategy development, planning, program, project, and scheme design and implementation with regard to DRR and development approach.</li> </ul>	<ul style="list-style-type: none"> <li>Strengthening the UN Cluster system for disaster risk management</li> <li>Develop a strategy for a stronger UN Early Recovery and Shelter Cluster coordination mechanism with district-level actors and improve disaster preparedness and response mechanisms.</li> <li>Strategy development and technical support to the government planning ministry, planning cell, sector ministry, and departments to improve gender integration and gendered climate risk-informed regular planning processes.</li> <li>Technical strategy development for the Ministry of Gender and Women NDMO, Met Agency in improving disaster risk management service deliveries.</li> </ul>	<ul style="list-style-type: none"> <li>With support from UN Agency (UN Women), National Disaster Management Organization (NDMO), Met Agency CSOs need to organize a local technical working group (TWG), develop local stakeholder maps, prepare standing orders on disaster (SOD), Standard Operating Procedures (SOP) and conduct community awareness campaign disaster risk management (Preparedness, response, recovery, and prevention)</li> <li>Conduct community awareness campaigns about climate extremes, impending multi-hazard risks and vulnerability, enhancing coping capacity, community-level Disaster and climate risk management</li> </ul>	<ul style="list-style-type: none"> <li>UN Women CO to develop gender inclusive DRM governance improvement at the district and local level.</li> <li>Supporting the government National Disaster Management Council, NDMO, Met Agency, Emergency Operations Center (EOCs), sector ministries, UN Agencies, and INGOs, etc., for improved DRM service deliveries at the local level.</li> <li>Strategy development for enhancing Institutional capacity by conducting technical training for NDMO, Met Agency, and EOC service deliveries.</li> </ul>
	Improving risk assessment capacity	<ul style="list-style-type: none"> <li>Conduct assessment on institutional capacity needs of risk and vulnerability assessment committee (VAC), development roadmap, partnership and</li> </ul>	UN Agencies ( <i>UNDP, WFP, IOM, UNHCR, IFRC, FAO, UNICEF, UN Women, UNFPA</i> ) to support government entities with developing robust tools,	Organize a CSO-level working committee to support the risk assessment committee. Conduct a CSO-level needs assessment capacity	UN Women CO to develop a strategy for enhancing the capacity of the vulnerability assessment committee (tools, methodology, process) and local-level civil protection committees (CPC)

Core Issue	WRD Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<p>stakeholder engagement, and standard operating procedure for comprehensive and precision level vulnerability assessment.</p> <ul style="list-style-type: none"> <li>○ Formulation of Technical Working Group-TWG (with support from the Government's national disaster management council, NDMO, Met Agency, EOCs, sector ministries, UN Agencies and INGOs, etc.) and to develop a strategy for the national Vulnerability Assessment Committee (MVAC-Malawi, ZimVAC-Zimbabwe, INGD/GREPOC/CENOE of Mozambique) for robust methodology, tools, guidelines, and process for conducting comprehensive climate and multi-hazard risk and vulnerability.</li> </ul>	<p>methodology, and guidelines for risk assessment.</p>		
	<p><b>Improving stakeholders' capacity on post-disaster damage, loss, and needs assessment (PDNA), Joint needs assessment (JNA), Rapid Needs Assessments (RNA), etc., so that gendered impacts are being clearly screened and assessed</b></p>	<ul style="list-style-type: none"> <li>• NDMO to formulate a joint task force (TWG) for <b>conducting PDNA, RNA, JNA, etc.</b></li> <li>• Develop a strategy for conducting an institutional capacity needs assessment (CNA) of the Vulnerability Assessment Committee (VAC) at the central and local levels,</li> <li>• Develop a permanent joint task force/ Technical Working Group (TWG) at the District level to organize risk assessment tasks at regular intervals.</li> <li>• Develop a local-level strategic engagement</li> </ul>	<ul style="list-style-type: none"> <li>• Strategy development for an Improved stakeholder coordination mechanism of the Early Recovery cluster and shelter clusters</li> <li>• Strategy development for collective accountability to the affected population (AAP)</li> <li>• UN agency coordination and technical support for capacity enhancement in ICT tools drive (Accessing WFP satellite image on flooding/storm surge, Satellite image in L&amp;D, Drone/UAV utilization, GIS and Remote sensing tools, maps, informed tools) based on PDNA, climate</li> </ul>	<p>CSO-level expertise and workforce development for supporting the risk assessment committee.</p> <ul style="list-style-type: none"> <li>• Local government actors, CSOs, and local committees to develop a local-level strategic engagement strategy/TWG for assessment of gendered climate and multi-hazard risk and vulnerabilities (CPC, DRM Committees, Vulnerable communities, local stakeholders, private sectors, etc.).</li> </ul>	<ul style="list-style-type: none"> <li>• Strategy development on capacity enhancement plans of the country-level vulnerability assessment committee, NDMO, at the central, district, and local levels.</li> <li>• Develop technical tools, Methodology, tools, guidelines, process, stakeholder, and local level enhancement plans for conducting CRVA, PDNA, JNA, and RNA at the national and local level</li> <li>• Prepare capacity development plan of local civil protection committees for gendered risk assessment.</li> </ul>

Core Issue	WRD Recommendations	Overall Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<p>strategy/TWG(Technical Working Group) for assessing gendered climate and multi-hazard risk and vulnerabilities (CPC, DRM Committees, Vulnerable community, local stakeholders, private sectors, etc.).</p> <ul style="list-style-type: none"> <li>• Install and operationalize EOC at every district level for multi-purpose functionalities, e.g., conducting risk assessment (CRVA, PDNA, JNA, RNA, etc.), dissemination of early warning, impact forecasting, and weather warning.</li> <li>• Government sector department to develop climate risk repositories for their sector.</li> </ul>	<p>risk, and vulnerability assessment(CVRA).</p>		
	<p><b>Improving gender machinery to govern DRM at the local level</b></p>	<ul style="list-style-type: none"> <li>• Sector department to develop strategies for identifying the entry point and level of gender component being integrated into the development planning process to address all the gender gaps (UNA agency and INGOs Support)</li> <li>• Conduct capacity needs assessment to understand the institutional/personnel capacity of the national disaster management organization (NDMO, DoDMA, INGD, and DCP), Met Agency, and Met Agency to support gendered DRM and DRR informed planning processes.</li> </ul>	<ul style="list-style-type: none"> <li>• HCT will develop strategy, policy, and advocacy support for improving gender machinery.</li> <li>• UN Clusters approach for supporting government duty bearers in developing gender group machinery at the sector level.</li> </ul>	<p>CSO will conduct the local assessment and identify the women's/gender needs and priorities for resilience building.</p>	<ul style="list-style-type: none"> <li>• Analysis of the overall systematic approach, the existing paradigm of gender inclusivity with governance structures, development planning process, and budgeting system at the national and sub-national levels.</li> <li>• Identify the key gaps of gender dimensions in the governance process.</li> <li>• Develop a strategy for closing the gender dimension of the governance process.</li> </ul>

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	<b>Strategy development and conduct stakeholder capacity building on Rapid Gender Analysis (RGA)</b>	Conduct an institutional assessment of the level of capacity in gender and climate risk integration processes in sectoral development planning and budgeting systems.	HCT to develop tools and methodology guidelines for RGA (UN Women, UNFPA, UNHCR, IOM, WFP, IFAD, etc)		Develop tools and methodology guidelines for RGA (UN Women, UNFPA, UNHCR, IOM, WFP, IFAD, etc.)
	<b>Capacity enhancement of NDMO and stakeholders in disaster emergency management at the national and local levels</b>	NDMO and other relevant government duty bearers are responsible for developing the institutional strengthening and capacity enhancement plan for DRM service deliveries.	HCT to provide technical support to NDMO and other relevant actors in robust DRM service delivery		Supporting NDMO and other relevant government duty bearers in developing gender inclusive Standard Operating Procedure (SOP), Gendered Standing Orders on Disaster (SOD ), DRM Plans, Disaster preparedness/contingency, response, and recovery plans at national and sub-national levels.
	<b>Multi-dimensional risk (climate change, multi-hazards, socioeconomic, food &amp; human insecurity) integration in regular Development Planning Cycles</b>	Develop institutional strengthening and capacity enhancement plans for sector-specific climate-informed disaggregated gender risk integration in regular Development Planning Cycles.	HCT to provide technical support to NDMO and other relevant actors in risk-informed development planning		Technical strategy development for the government planning desk in strengthening the risk-informed development planning process
	<b>Capacity building and strategy development for improving the institutional DRM coordination structure</b>	Develop a stakeholder engagement plan and coordination structures for DRM service delivery	Support government duty bearers in the development of a stakeholders' engagement plan	Developing a local-level engagement plan	Support government duty bearers in the development of a stakeholders' engagement plan
	<b>District-level risk-informed and gender-responsive planning and budgeting system for implementing annual development schemes.</b>	Initiate the Gender-inclusive sector-integrated DRR/CCA district-level planning and budgeting process			
	<b>Risk-informed integrated rural development planning</b>	initiate risk-informed integrated rural development planning	Capacity enhancement of the sector department in climate risk-informed		Capacity enhancement of the sector department in climate risk-informed
	<b>Development of multi-stakeholder/agency-coordinated Gender in</b>		UN HCT/UN Cluster support for the design and implementation of GiHA process		UN HCT/UN Cluster support for the design and implementation of GiHA process

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	Humanitarian Action(GiHA) process				
	Systematically maintain /update Disaster Risk Management Information System (DRMIS) at the country's central provincial, district, and TA/Administrative Post, Village level	DRMIS/SADD database development at the sector level to support needs and priorities based on Prevention Preparedness, contingency response, and recovery planning	UN HCT to support NDMO and the sector department in developing DRMIS		
	Strengthening the gendered risk finance framework	<ul style="list-style-type: none"> <li>State fiscal annual budgetary allocations for the district level for gendered DRR/CCA project/scheme implementation.</li> <li>Capacity building of NDMO, Climate Change Ministry to develop resource Mobilization strategy (CERF, DERF, Track Funds), the process to address overall emergency response resource gaps in given circumstances of impending multi-hazards at a colossal level (Cyclone, major flood, and drought) are likely to cause Loss and damage.</li> <li>Capacity building of state actors in forecast-based finance (FBF) mobilization</li> </ul>	Supporting the Ministry of Finance in Strategy development and coordinating government climate sector ministries/departments for harmonizing GCF, GEF, NAP, NDC, NAMA, L&D funds for undertaking gendered DRR		Supporting the Ministry of Finance in capacity building, Strategy development, and coordinating government climate sector ministries/departments for harmonizing GCF, GEF, NAP, NDC, NAMA, L&D funds for undertaking gendered DRR
	Fiscal budgetary allocations for the district-level DRM/DRR/CCA interventions	<ul style="list-style-type: none"> <li>Implementation of Performance-based climate and DRR risk finance allocations at district-level local government for gendered climate risk finance and DRR/CCA interventions</li> </ul>	<ul style="list-style-type: none"> <li>Develop policy and advocacy support to the finance ministry for devising the decentralized fiscal facility and gendered risk financing mechanism for the central and district levels</li> </ul>		Support the Finance Ministry in devising decentralized fiscal facilities and a gendered risk financing framework for the national and district levels

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	Improving district-level disaster risk governance functionaries ( <i>District executive council, sector clusters, Technical Working groups, Civil protection Committee</i> ) for DRM /DRR-related service deliveries	<ul style="list-style-type: none"> <li>• NDMO and other stakeholder institutional capacity enhancement plan development</li> </ul>	<ul style="list-style-type: none"> <li>• HCT &amp; UN Cluster support for enhancing District-level DRM service deliveries</li> </ul>		Developing capacity enhancement plan and conducting gendered DRM /DRR service deliveries
Improve gender machinery	Capacity development of state actors/sector departments in gender responsive planning, participation in the local government legislative system, and proportional women's employability in government sector departments	<ul style="list-style-type: none"> <li>• Local Governance improvement for closing the gender inequality gap. Promoting gender-dimensioned local government power structures and governance processes.</li> </ul>	<ul style="list-style-type: none"> <li>• Support for the gender ministry and department other relevant actors for devising gender machinery for devising gender machinery framework</li> </ul>		
	<ul style="list-style-type: none"> <li>• Capacity development of state actors/sector departments, local revenue mobilization, fiscal decentralization, and budgetary allocations for the district level</li> <li>• Capacity building of Women-led organizations for the implementation of gender development actions at the local level</li> </ul>	<ul style="list-style-type: none"> <li>• Gender Responsive Budget Framework</li> </ul>	<ul style="list-style-type: none"> <li>• Develop policy and advocacy support to the finance ministry for devising the decentralized fiscal facility and gendered risk financing framework for the national and district levels.</li> </ul>		Support the Finance Ministry and other state actors in devising decentralized fiscal facilities and a gendered risk financing framework for the national and district levels.
	Effective gender participation and advocacy on Gender Responsive Budget (GRB) at the District, Village level Development planning and	<ul style="list-style-type: none"> <li>• Gender ministry (along with finance, disaster management, environment and climate change, planning, and economic development) to lead the process of</li> </ul>	<ul style="list-style-type: none"> <li>• Supporting the Ministry of financing for initiating Gender Responsive Budget (GRB) framework for the district-level</li> </ul>		Policy/advocacy support to the Ministry of Financing for initiating Gender Responsive Budget (GRB) framework for district-level

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	Budgeting process (DRR/DRM/CCA)	devising the Gender Responsive Budget (GRB)			
	Addressing Grievance redress mechanism (GRM) of the project, budget allocation, and target beneficiaries (checklist), and disclosure at the district level notice board/ national media of the level of gender	• Climate change-related Sector ministry to address GRM	• Strategic support		Strategic support
	Capacity development for strengthening the government planning Ministry, the Planning Commission, in risk-informed and gender-integrated planning, strategy development, and the decision-making process	• Government sector ministry to conduct capacity needs assessment (Institutional and personal) gap identification and strategy development	• Provide strategic support on institutional capacity building, informed tools, and methodology development for facilitating risk-informed planning, strategy development, and the decision-making process		UN Women to coordinate UN Agencies/INGOs/CSOs for institutional assessment, capacity assessment, tools assessment, gap identification, and provide strategic support on institutional capacity building, informed tools, methodology development for facilitating gender-integrated and risk-informed planning, strategy development, and decision-making process
	Identification of root causes and strategy development for the reduction of PSEA and SGBV.	•	• Strategy development on nexus building of all relevant stakeholders (government agencies, stakeholders, and CSOs) on how to reduce PSEA and SGBV.	CSO to identify the root causes of PSEA and SGBV incidence and develop a strategy to reduce them.	UN Women to develop a framework approach for strengthening the institutional capacity building in actionable planning in reducing PSEA and SGBV
	Installation of an evidence-based decision-making system with informed DRMIS/SADD tools and utilization of Evidence-based (SADD/CRVA) gender-responsive planning capacity of the planning department, and sector department on DRR/CCA interventions	• Conduct needs assessment of evidence-based tools, driven by informed planning	• Strategy support for the stakeholders		Strategy development for gender-responsive planning capacity of the planning department and the sector department on DRR/CCA interventions

Core Issue	WRD Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	<b>Development of a gendered climate risk information network</b>	<ul style="list-style-type: none"> <li>• UNDRR early warning for all( EW4ALL) Coordination support for the development of a gendered climate risk information network</li> </ul>	<ul style="list-style-type: none"> <li>• UN Agency to support NDMO &amp; Climate Change Ministry (NDA) in developing a gendered climate risk information network</li> </ul>		Working with UNDRR, National Met Agency, and National Hydrometeorological Organization ( NHMS) Strategy development for the design and implementation of a gendered climate risk information network
	<b>Improving Gender Responsive Disaster Preparedness and Response Plan</b>	<ul style="list-style-type: none"> <li>• NDMO and other sector clusters/department development District-level contingency plans and decisions are not following through the participatory from bottom-up process (households &gt; village level CPC &gt; TA CPC&gt;Area CPC&gt; District CPC)</li> </ul>	<ul style="list-style-type: none"> <li>• UN OCHA and Cluster support for developing</li> </ul>	CSO to support district-level stakeholders in the development of gendered disaster preparedness and response plans, and complement GiHA.	Design and implementation of multi-stakeholder participation GiHA
	<b>Improving stakeholder coordination and engagement mechanisms,</b>	<ul style="list-style-type: none"> <li>• Operational Guidelines on Multi-Stakeholder DRM coordination structure need to be developed.</li> <li>• Multi-hazard contingency plans and budgets were developed, and funds were allocated for implementing DRR interventions at the local level.</li> <li>• Enhance the capacity of all stakeholders at the sub-national and local levels for multi-hazard preparedness and disaster emergency management.</li> <li>• Improve the coordination structure of the District Execution Committee (DEC), Sector, or Cluster census and commitment to enhancing the resilience, preparedness, and response capacities of women and vulnerable communities to Disasters.</li> <li>• Gender risk inclusive Development of District Development Plan (DDP), Disaster DRM, DRR, contingency</li> </ul>			

Core Issue	WRD Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<p>plans, humanitarian assistance, and DRR interventions, at the local level for the women.</p> <ul style="list-style-type: none"> <li>Develop a gendered DRR/DRM framework, consensus among sector ministries and local authorities on gendered DRR and local development, a Lack of gender machinery, a gender development framework, a gendered DRR framework, relevant stakeholder mandates, and guidelines for gendered DRR interventions and local development.</li> </ul>			
	<p><b>District-level youth coordination and engagement in the DRM(Preparedness, response, and recovery ) process.</b></p>	<ul style="list-style-type: none"> <li>Local government-level youth coordination and engagement in the DRM process</li> </ul>	<ul style="list-style-type: none"> <li>UN Cluster/HCT support for developing District-level youth DRM coordination and engagement strategy (Preparedness, response, and recovery).</li> <li>Capacity development of Youth DRM/DRR action group</li> </ul>	<ul style="list-style-type: none"> <li>Youth DRM/DRR network development</li> <li>Youth voluntary network development</li> <li>Youth participation in district-level DRM planning and DRR intervention process</li> <li>Youth group coordination network at the district level to let youth voices be heard in the district-level decision-making process.</li> <li>Capacity building of CSO for community engagement</li> <li>Women's empowerment district allocation for women</li> <li>Women-headed households have access to receive grants.</li> </ul>	<p>Strategy development and implementation of the youth DRM coordination group</p>
	<p><b>Improvements of the gender-responsive climate fiscal framework at the national and sub-national levels</b></p>	<ul style="list-style-type: none"> <li>Improvements in gender-responsive climate fiscal framework at the national and sub-national level</li> </ul>	<ul style="list-style-type: none"> <li>Supporting government finance ministry, and financial institutions for improving the fiscal facility for structural improvement of current structures, process, coordination,</li> </ul>	<p>CSO to complement the district-level climate fiscal framework</p>	<p>Supporting government finance ministry, and financial institutions for improving the fiscal facility for structural improvement of current structures, process, coordination, functional status-quo(effectiveness and efficacy ), and</p>

Core Issue	WRD Recommendations	Overall	Actionable Recommendations for Stakeholders			
			Government	UN Agencies	CSOs	UN Women Country Office (CO)
			<ul style="list-style-type: none"> <li>Improvements in the Disaster Risk Financing framework at the national and sub-national level</li> <li>Improvements to the Early Action Protocol (EAP), guided by impact-based weather forecasts, warnings, and alerts.</li> <li>Improvements of the gender-responsive forecast-based financing framework and Early warning based early action for improving prevention and preparedness actions</li> </ul>	functional status-quo (effectiveness and efficacy), and actionable plans in; Engagement, Coordination, Partnership, Resource Mobilization (CERF, DERF, Track Funds) to address overall resource gaps in given circumstance of impeding multi-hazards at a colossal level		actionable plans in; Engagement, Coordination, Partnership, Resource Mobilization (CERF, DERF, Track Funds) to address overall resource gaps in given circumstance of impeding multi-hazards at a colossal level
	Improving coordination of accountability to the affected population (AAP) on gendered humanitarian action (GiHA) and DRR at the local level.		<ul style="list-style-type: none"> <li>Developing sector-level AAP framework and GiHA</li> </ul>	<ul style="list-style-type: none"> <li>UN HCT/IASC support for developing a collective AAP action plan for the state and non-state actors</li> </ul>	CSO collective AAP and GiHA action plan	Strategy development for consultations, coordination, and developing a collective AAP action plan and GiHA planning.
Early warning and process services	Improving Communication	Risk	<ul style="list-style-type: none"> <li>NDMO/Met Agency/EOC to develop a policy advocacy strategy to influence the ministry to enhance national AM Radio (Amplitude Modulation) transmission capacity so that it can be tuned by <b>medium wave radio set</b> from any given landscape within the geographical boundary (as <i>because FM radio has the frequency limitation, it is urban-based and cannot reach out the remotest audiences and disperse settlements</i>).</li> <li>Installation/Activation of EOC (Solar PV powered) at the Province/District level to interpret forecast impacts at</li> </ul>	<ul style="list-style-type: none"> <li>UNDP, WFP, and IOM to develop a strategy and concept notes on donor harmonization for improving the risk communication system.</li> <li>UNDP, WFP, and IOM support NDMO, Met Agency, and EOCs to develop the capacity of EOCs,</li> <li>Improving Risk communication strategy</li> </ul>	UN Women to develop a capacity development strategy, tools, and impart capacity building programs for improving risk communication at the local level.	UN Women CO to develop a coordination structure, guidelines, strategy, tools, and methodology for improving risk communication.

Core Issue	WRD Recommendations	Overall Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<p>the local level with the latest technologies, e.g., drones, UAV, drone radio transmitters for search and rescue, boats(floating), lifejackets, and other tools.</p> <ul style="list-style-type: none"> <li>• Develop policy, strategy, guidelines, and methodology on installation and activation of a multi-hazard-proof disaster emergency risk communication network with satellite links/ UHF/VFH national communication network loop connectivity with Province, District, EOCs, and Civil Protection Committees (CPC) at TA/Administrative Post level for disaster time emergency risk communication.</li> <li>• Develop policy, strategy, guidelines, and methodology on how to anchor ICS (incident command system) civil-military risk communication strategy during disaster emergencies and utilization of defense wireless network by EOCs at the province/District and local level during disaster emergencies.</li> <li>• Mandating and capacity building of national AM Radio in disseminating multilingual impact-based forecasting and multi-hazard early warning system being disseminated through national Radio broadcasts, development of forecast-based early action for women, and operational forecast for women.</li> </ul>			

Core Issue	WRD Recommendations Overall	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<ul style="list-style-type: none"> <li>Enhance the capacity of community radio and mandate the broadcasting of early warnings in local languages. Mandate community radio to broadcast awareness-raising and mass education programs on gendered climate risk, SGBV, DRM, DRR, CCA, and other relevant topics.</li> </ul>			
		<ul style="list-style-type: none"> <li>Stakeholder capacity building in gender early warning interpretation, dissemination, GiHA, SGBV incidence tracking, Disaster Emergency preparedness, response, and community-based recovery interventions</li> </ul>			
	<b>Capacity building of EOC/NDMO/Met Agency in developing Early Action Protocol (EAP), Forecast-based early action planning, Impact Forecasting for the sectors/elements</b>	<ul style="list-style-type: none"> <li>NDMO (DoDMA, DCP, INGD)/Met Agency to develop methodology, tools, and guidelines on how to develop people understandable hazard early warnings, extreme weather warning/alerting, forecast bulletin of extreme weather events, what would be SMS/Cell broadcast/IVR messaging style, how to disseminate risk communication mechanism through national Radio, TV, Media outlets (with multiple languages) to far remote audiences.</li> <li>Provide training for capacity building of EOCs at the local level (<i>managed by NDMO/Met Agency/UN Agency</i>) for developing forecast bulletin, Early Action Protocol, Forecast-based early action planning, Capacity building of civil protection</li> </ul>	UN Agencies – UN OCHA/UNRC, UNDP, WFP, UNICEF, IOM, UNHCR, FAO, IOM, UN Women) for developing a capacity building manual, knowledge products for enhancing the capacity of EOC, NDMO, and the Met agency in developing EAP Forecast-based early action planning, Impact Forecasting for the sectors/elements	Capacity development manual for CSOs to conduct training and awareness raising campaigns/programs targeting the vulnerable community and gender groups.	UN Women to organize a technical working group (WMO regional weather forum, NDMO, Met Agency, UN Agencies – UN OCHA/UNRC, UNDP, WFP, UNICEF, IOM, UNHCR, FAO, IOM, UN Women ) for developing a capacity building manual, knowledge products for enhancing the capacity of EOC, NDMO, Met agency in developing EAP Forecast based early action planning, Impact Forecasting for the sectors/elements

		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		situations and reporting, PESA and SGBV reporting <ul style="list-style-type: none"> <li>• Food security, social security, psychosocial support for IDPs</li> <li>• National media outlet (Radio/TV) based on constant broadcasting on humanitarian situations and GBV incidence.</li> <li>• Improving gender-focused early warning mechanisms, developing an Early Action Protocol (EAP) focusing on women and girls.</li> <li>• Developing early warning-based anticipatory early action focusing on women and girls.</li> <li>• Strengthening people-centered early warning systems at the national and local levels.</li> <li>• Provide free Radio sets (solar-powered, wind-up) to every house for accessing radio broadcasts of early warning bulletins.</li> <li>• Capacity development in Common Alerting Protocol (CAP) development</li> </ul>			
	<b>Improving gender-focused early warning mechanisms developing an Early Action Protocol (EAP) focusing on women and girls</b>	NDMO, Met Agency, and NMHS to conduct an assessment of how women and gender are accessing early warning at the local level, identify the systemic gaps, and provide recommendations for improving access to community-based early warning that is accessible and understandable by women, girls/youth, children, and other vulnerable communities.	The UN-HCT/UN Cluster will provide technical support to the NDMO, Met agency, and NHMS organizations for developing gender-sensitive, community-level early warning systems in the local language.	CSO to develop a strategy on how to improve gender and how to upgrade gender group-focused (women, groups, youth, children, elderly, disabled population) and easily understandable early warning messaging system, a bulletin with local language.	UN Women CO to develop a strategy for upgrading gender-focused early warning messaging systems (for women, groups, youth, children, elderly, and disabled populations) into easily understandable bulletins in local languages.  Strategy development and providing technical support to NDMO, Met agency, and NHMS organizations for developing gender group understandable community-level early warning for all systems in local languages.
	<b>Developing Early warning-based anticipatory early</b>	NDMO, Met Agency, and NMHS to develop forecast-based anticipatory early action protocol	UN-HCT/ UN Cluster to provide technical support to NDMO, Met agency, and NHMS organizations	CSO/WLO to develop the local level roadmap, stakeholder coordination structure, community	UN-HCT/ UN Cluster to provide technical support to NDMO, Met agency, and NHMS organizations

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	action focusing on women and girls		for developing forecast-based anticipatory early action protocol	engagement strategy, methodology, and actionable plan on implementation of forecast-based anticipatory early action protocol	for developing a forecast-based anticipatory early action protocol
	Provide free Radio sets (solar-powered, wind-up) to every house for accessing radio broadcasts of early warning bulletins.	NDMO, Met Agency, and NMHS to develop policy advocacy for the rationalizing government for providing free radio/TV sets (Solar PV/Wind up) to the community level for distance learning, early warning, education, and awareness raising purposes.	UN Agency to develop a strategy, policy advocacy instrument for convincing the government and donor community to supply free radio/TV sets to the community.	CSO to conduct an assessment on how many households do not have access to community radio and are living in hard-to-reach areas	UN Women's CO to initiate the process by developing a strategy/advocacy, and communication strategy for the implementation of the process.
	Capacity development in Common Alerting Protocol (CAP) development for impending multi-hazard events with a spatiotemporal scale.	NDMO, Met Agency, NMHS to develop Common Alerting Protocol (CAP) for impending multi-hazard events with a spatiotemporal scale.	UN Agency to provide support to NDMO, Met Agency, and NMHS for the development of CAP and EAP for community-level early warning.		UN Women CO to initiate the process, strategy development, and consensus building with NDMO, Met Agency, and NMHS to develop Common Alerting Protocol (CAP) for impending multi-hazard events with a spatiotemporal scale.
	Developing Gender in Humanitarian Action (GiHA) Roadmap and Planning	NDMO, Met Agency, and NMHS to develop the GiHA roadmap, methodology, action plan, and stakeholder engagement strategy at the district and local levels. Develop a strategy for the following outlined actions to institutionalize GiHA at the District and local levels. <ul style="list-style-type: none"> <li>Gender-engaged Emergency Response Management:</li> <li>Enhancing stakeholder capacity in how to improve gender-responsive humanitarian response management.</li> </ul>	UN Agency to provide technical support to relevant stakeholders (Gender Department/working group, NDMO, Met Agency, NMHS, Local Government, CSO, WLO, etc.) for developing GiHA) Roadmap and planning, and implementation strategy		UN Women CO to initiate the process, strategy development, and consensus building, and provide technical support to relevant stakeholders (Gender Department/working group, NDMO, Met Agency, NMHS, Local Government, CSO, WLO, etc.) for developing GiHA: roadmap, planning, implementation, and local-level engagement strategy.

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
		<ul style="list-style-type: none"> <li>○ Capacity building of stakeholders in the women-led GiHA response plan</li> <li>○ Capacity building for stakeholders in delivering Emergency responses to the impacted population.</li> <li>○ Concrete action plan and local level stakeholders /community/ engagement with GiHA working group so that no women are left behind</li> <li>○ Gender-friendly humanitarian action planning, Camp setup, camp management, security, pre-positioning lifesaving Food/NFI, and need-based supplies of assistance.</li> </ul>			
<b>Stakeholder coordination structures for DRM</b>	<b>Reforming/revisiting land control/management acts and providing women easy access to agricultural land for more inclusive green growth and women's empowerment at the local level</b>	The sector ministries (land ministry, environment, and forest ministry) need to reform /liberalize the land, water, and aquatic resources regulatory policy to provide community stakeholders (women, women's groups, smallholder farmers,/Women's organizations) with access to these resources.	UN Agency (FAO, WFP, IOM, UNHCR, UNICEF) to provide policy advocacy support to the sector ministry for reforming/revisiting of land control/management acts		UN Women to initiate the process and provide policy advocacy support to the sector ministry for reforming/revisiting of land control/management acts so that the marginalized community can access more lands/aquatic resources/ecosystems/agroforestry/environmental resources for IGA activities.
	<b>Enhancing the capacity of Women-led organizations (WLO) implementation of DRM/DRR/CCA-related schemes and strengthening women's resilience to disasters</b>	NDMO to organize the capacity development and engagement plan of WLO/CSO at the District and local level	UN Agency (FAO, WFP, IOM, UNHCR, UNICEF) to provide policy advocacy support to productive sectors in the implementation of DRM/DRR/CCA-related schemes and strengthen women's resilience to disasters.		UN Women CO to initiate the process to develop capacity engagement strategy /training programme for the productive sectors ( Agriculture, livestock, fisheries, Agroforestry, Environment, water resources and other DRR sectors ) on how to undertake risk-informed and local agroecology-based DRR/CCA schemes for the rural community, women headed smallholder farmers, green development enterprises/entrepreneurs.

		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	<b>Enhancing the functional strategic capacity of the finance ministry/financial institutions/financial sectors for more local revenue mobilization, harmonizing public and private sector finances for women-led green entrepreneurship development for local DRR and resilience building</b>	Roadmap and consensus development by the state actors (Local Government ministry/department, Finance ministry/department, Environment & Climate Change, gender/Women Affairs ministry/department, NDMO, Met Agency, NMHS, etc., for an inclusive green finance framework development for women-led green entrepreneurship development for local DRR and resilience building	UN Agency to provide technical support to state actors for developing a green financing mechanism strategy for supporting women-led green entrepreneurship development.		UN Women CO to initiate the process/ develop a technical strategy to support state actors in developing a green financing mechanism strategy for supporting women-led green entrepreneurship development.
	<b>Develop a district-level gendered DRM framework, Gendered DRM coordination structures, and a process for inclusive gender group engagement with DRM/DRR/CCA interventions at the community level</b>	Roadmap, stakeholder coordination structure, actionable plan/process/strategy development with exclusively engaging all stakeholders (state, non-state, private sectors) in the district-level gendered DRM coordination framework and process.	UN Agency to provide technical support to actors for developing a gendered DRM framework.		UN Women CO to initiate the process/ develop technical strategy, support for the district-level actors in developing a gendered DRM framework, Gendered DRM coordination structures, and process for inclusive gender group engagement with DRM/DRR/CCA interventions at the community level
	<b>Strengthening the coordination mechanism of the National Local Government Financing Committee (LGFC), Agricultural Innovation Project (AIP), and the Affordable Inputs Programme (AIP) for risk finance mobilization at the local level</b>	Roadmap /strategy development for sectoral engagements with LGFC in more inclusive AIP, DRR, DRM, and CCA project design and implementation at the local level.	UN Agency to provide technical support to actors for strengthening LGFC for local revenue mobilization and allocation of inclusive risk finance to frontlines.		UN Women CO to initiate the process and provide technical support for the development of national and local-level risk financing strategies.
	<b>District level Anticipatory action (AA) DRM programs, Food security and logistics, preparedness, and response.</b>	Sector departments to Roadmap/strategy development for implementing Anticipatory action (AA) to support the DRM/DRR/CCA scheme at the local level	UN Agency to provide technical support to relevant actors to design and implement AA for DRM/DRR/CCA schemes at the local level		UN Women CO to initiate the process and provide technical support to relevant actors to design and implement AA for DRM/DRR/CCA schemes at the local level

Core Issue	WRD Overall Recommendations	Actionable Recommendations for Stakeholders			
		Government	UN Agencies	CSOs	UN Women Country Office (CO)
	<b>Strengthening the Civil Protection Committee (CPC)</b> <b>Develop early warning for internal migration/displacement etc.</b>	Develop CPC network, database, tools, communication tools & strategy, SOP, Standing orders of CPC mobilization during disaster emergencies	UN Agency (WFP, IOM, UNHCR) to provide technical support to relevant actors to develop CPC functional network		UN Women CO to initiate the process and provide technical support to NDMO, local government actors, CSO, WLO, NGOs, and other local-level organizations in developing the CPC network and process.
	<b>Capacity development of NDMO (DoDMA, INGD, DCP) at the district level DRM/DRR/CCA for better service deliveries.</b>	Develop institutional strengthening of the program for NDMO at the provincial, District, and local level service deliveries.	UN HCT, UNOCHA, UNDRR, and other agencies to develop a strategy for institutional strengthening of NDMO at the provincial, District, and local level service deliveries.		UN Women CO to develop a strategy, initiate a work plan, and develop a strategy for the institutional strengthening of NDMO at the provincial, District, and local levels of service delivery.
Improving SADD	<b>Capacity building of stakeholders in developing tools, methodology for conducting SADD information collection, database development and informed tools development</b>	Develop institutional strengthening of the program to enhance the national Statistical agency, NDMO, the vulnerability assessment committee (VAC), the Met Agency, NHMS, Local Government, the National EOC, and local level EOC, as well as relevant sector departments, to improve risk assessment. Conduct a survey for SADD data collection at the community level.	UN HCT, UNOCHA, UNDRR, and other agencies to develop a strategy and institutional capacity enhancement for SADD data collection.	CSO to develop a local-level engagement plan for SADD data collection.	UN Women CO to develop a strategy, initiate a work plan, and develop a strategy for the institutional strengthening of relevant actors in SADD data collection.
<b>UN/Government structures engaging women and women-led organizations in DRR and resilience initiatives</b>	<b>District Disaster Risk Management Plan (DRMP), risk-informed annual development programme(ADP)</b>	The local government will analyze the current planning process, define gaps, and develop strategies for robust risk-informed planning at the district level.	UN Agency to support the district local government in the development of the District Disaster Risk Management Plan (DRMP)		UN Women CO to develop a strategy, initiate a work plan, and develop a strategy for institutional strengthening on the District Disaster Risk Management Plan (DRMP) and the budgeting process.
	<b>HCT /UN Cluster-led strategy development for enhancing the capacity of women-led organizations (WLOs) and</b>		UN Agency supports the government's National policy and strategy for developing the Common Programme Framework (CPF), gendered (women, Girls,		UN Women CO to develop a strategy, initiate a work plan, strategy development of the gendered Common Programme Framework (CPF)
