# INTRODUCTION

Shelter / Emergency Shelter is a critical determinant for survival in the initial stages of a disaster. Beyond survival, a shelter is necessary to provide security, personal safety, protection from the climate and to promote resistance to ill health and disease. It is also important for human dignity, to sustain family and community life and to enable affected populations to recover from the impact of disaster. At an international level, this is reflected in the Humanitarian Charter that sets out the rights and duties governing humanitarian actions. In humanitarian action, shelter, settlement and associated non-food items are familiar terms that fall within the scope of the right to adequate housing, which is enshrined in human rights law. Everyone has the right to adequate housing.

We invite you to review the 2025 National Emergency Shelter List carefully. Take time to look for the most suitable and nearest shelter to you and your family. Prepare your emergency kit for your family and make sure to take it with you. Make sure you have a family plan. Scan the QR Code below for the NEMO Family Plan.

Let's continue to work together to build a Belize resilient to disasters!
