Uruguay: Floods

Uruguay has been hit with the worst flooding to affect it in many years. Currently, the government is reporting that close to 110,000 persons are affected, with approximately 12,000 evacuated. Nine states (departamentos) are affected by heavy flooding in the country.

The Uruguay Red Cross (URC) has requested assistance from the Federation for the flooding response. The Uruguay has mobilized the 4 RIT members of the URC. Others RIT members are on stand-by. PADRU has responded by deploying a disaster manager. He will work to finalize a plan of action, and also serve to provide technical support to the URC in the area of assessment and plan development
